IP20

Digital Timer

DIGITAL TIMER WEEKLY IP20

day/week

Description of product family

Digital timer with a large, clear LCD screen. Ten programming slots. Set timers on daily or weekly basis (24/7). Two on/off configurations for morning and night, for example. Back-up battery allows you to program the timer without connecting it to an outlet. Stored programs will remain in the memory even after a power outage for up to 100 hours! The Random function increases your peace of mind when you are away from home for longer, such as during a vacation: the function turns lights and other devices connected to the timer on and off at random intervals, creating the impression that the house is not empty. Time displayed on screen. For indoor use.
