

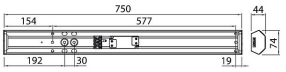
Handy

Handy 750 IP21 11W 830/840 WH

Intermediate space luminaire

Description of product family

The popular Airam Handy task lighting series is designed for general lighting above kitchen worktops and utility room surfaces. Before installation, the colour temperature is selected — 3000 K or 4000 K. Handy fixtures come in four lengths and wattages. They can be surfaced-mounted either straight or at a 45° angle. The series also includes models with a double grounded socket and an on/off switch that allows the sockets to be controlled directly from the luminaire.



Technical details

Handy 750 task light for general illumination above kitchen counters or utility room worktops. Select the colour temperature — warm white (3000 K) or cool white (4000 K) — before installation; the selector is located inside the luminaire. Led 11 W 1200 lm, luminaire length 750 mm.
