Generic Lux

Generic Lux IP65 2X17,5W/840 PCC GR

General Luminaire

Description of product family

The through-wired Generic Lux model offers exceptionally easy and fast daisy-chaining of luminaires. Generic Lux is a dust-tight and water-resistant IP65-rated general luminaire with replaceable light sources. The luminaire is suitable for indoor use in both dry and damp residential areas, such as garages and storage rooms. It is easy to install on a wall or ceiling using the supplied metal mounting brackets and can also be suspended using wire. The even and efficient LED light switches on instantly. Supplied with highly energy-efficient T8 LED tubes with a colour temperature of 4000 K. Available in two lengths. The housing is made of durable ABS plastic.

Airam LED tubes feature a wide label at one end to ensure correct installation orientation. Install the LED tube so that the end marked with the wide label and symbols is placed in the lampholder connected to the power supply.
