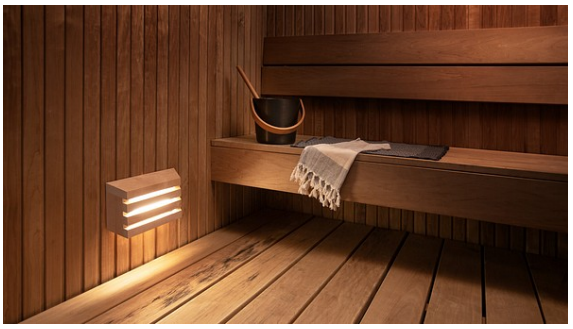
Saunaled H

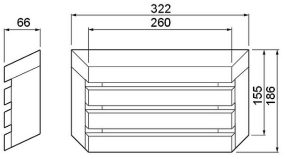
Saunaled H 320 8W/827 PCO TRL

Sauna luminaire



Description of product family

Saunaled H (horizontal) is a stylish sauna luminaire with a fixed AC LED. The wooden shade is manufactured in Finland from high-quality domestic alder. The luminaire is dimmable, allowing the light output to be adjusted to suit different situations. The dust- and water-resistant luminaire can be surface-mounted or recessed into a wall. We recommend treating the wooden parts with a wood protection agent before use. The wood can also be stained individually to match the sauna interior. The product carries the Design from Finland label.



Technical details
