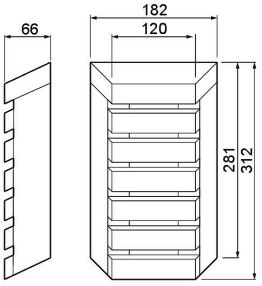
Saunaled Vert

Saunaled V 180 8W/827 PCO TRL

Sauna luminaire

Description of product family

Saunaled Vert (vertical) is a stylish sauna luminaire with a fixed AC LED. The wooden shade is manufactured in Finland from high-quality domestic alder. The luminaire is dimmable, allowing the light output to be adjusted to suit different situations. The dust- and water-resistant luminaire can be surface-mounted or recessed into a wall. Saunaled Vert can also be installed in a corner. We recommend treating the wooden parts with a wood protection agent before use. The wood can also be stained individually to match the sauna interior. The product carries the Design from Finland label.



Technical details

Vertical Saunaled Vert with a non-replaceable, dimmable AC LED, 8 W 500 lm 2700 K. IP65. Operating temperature +5... 60 °C. Wooden shade made from Finnish black alder, which can be treated and tinted based on preference. The light can also be installed in a corner. The product carries the Design from Finland mark.
