

Kallio

Kallio IP44 E27 GLC ANT H900

Bollard luminaire

Description of product family

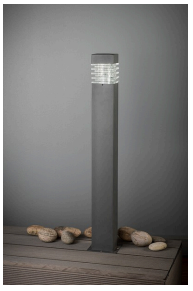

Kallio bollards are ideal for lighting pathways and plantings in the yard. The splash proof body of the upright Kallio light is made of stainless steel. You can choose between two colour and coating options for the body: grey stone coating or powder-painted anthracite grey with a matte surface. The tempered glass dome disperses the light beautifully. Install together with a concrete base and a support tube (4107058), or choose a ground support tube (4107104) that can be sunk directly into the ground.

Technical details

Stylish anthracite-colored Kallio bollard light for outdoor use. Height 900 mm. Steel frame and a clear tempered glass globe. The light requires a bulb that is narrower than standard options. Recommended bulb: P45 LED bulb or a narrow-bodied Airam Tubular LED bulb with E27 base. Light source not included in the package. IP44.
