IP54

Working Lamp

WORKING LAMP IP54 E27 MAX 60W 5M

Work light IP54

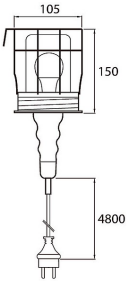

Description of product family

The splash-proof extra, work or renovation lamp is designed for in- and outdoor use. An excellent auxiliary light for the garage or storeroom. Insert into the glass globe an E27 based standard bulb (max. 60 W). The metal basket contains a handy suspension hook, a Schuko plug connection and a 5 m cord of black rubber cable. The work light's tightly closed glass globe protects the lamp against dust and splashes and the metal basket against dents (IP54). The lamp is sold separately. The work light is also used as an industrial styled decorating lamp.

Technical details
