Fiora

Fiora IP20 E27 9,5W/835 30D BK

Plant luminaire

Description of product family

Provide your houseplants with supplemental light from November to March – or year-round if the plant does not receive enough natural daylight. The Fiora grow light is freely suspended from the ceiling. Installation is easy: connect the euro plug to a socket and hang the luminaire above the plants. The cable length is 5 m. The package includes a 3500 K LED grow lamp with pleasantly white light, and the high-gloss reflector distributes the light evenly. The lamp is replaceable. Airam LED grow lamps are tuned to the wavelengths required by plants and are therefore not suitable for general room lighting.

Technical details

Provide houseplants with supplemental light during the darker season. Suspend the Fiora grow light from the ceiling above the plants. Cable length 5 m, black housing (Ø 140 mm, height 175 mm). Replaceable LED grow lamp 9.5 W E27 3500 K included. Euro plug, on/off switch. Indoor use, IP20.
