Cool 40 Eco

AIRAM COOL 40 12V / 230V

40 l cooler 12 V / 230 V

Description of product family

A very spacious cooler with a pull handle and wheels for easy transport. The energy-saving mode (ECO) saves up to 70% energy compared with MAX mode. There is room inside for several 1.5 l drinks bottles in an upright position. Thanks to the bidirectional fan motor, the cooler cools quickly, down to 16 °C below ambient temperature. In ECO mode, the temperature inside the cooler is 14–16 °C.

Technical details

A spacious cooler (40 L) with a pull handle and wheels for easy transport. There is room inside for several 1.5 L drinks bottles in an upright position. Thanks to the bidirectional fan motor, the cooler cools quickly, down to 16 °C below ambient temperature. In ECO mode, the temperature inside the cooler is 14–16 °C. Energy consumption 76 kWh/a.
