AIRAM COMPRESSOR COOLER 38L 12V/24V

AIRAM COMPRESSOR COOLER 38L 12V/24V

38 l compressor cooler 12 V / 24 V

Description of product family

A two-compartment compressor-powered fridge-freezer cooler keeps food cool. The larger compartment operates as a freezer down to -22 °C, while the smaller compartment cools to +10 °C. The cooler can withstand temporary tilting at an angle of up to 30°. When operated on mains power, you can choose between energy-saving and High Speed modes. The DC 12 V/24 V vehicle power cable is suitable for boats, buses, motorhomes and lorries, among other applications. Includes a mains power adapter. An 8 A spare fuse is also included.
