IP21 | 3 x 2,5

Handy

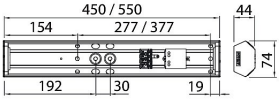

Handy 450 IP21 5W 830/840 WH

Intermediate space luminaire

Description of product family

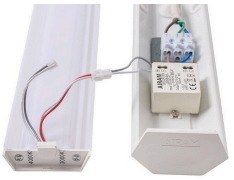

The popular Airam Handy task lighting series is designed for general lighting above kitchen worktops and utility room surfaces. Before installation, the colour temperature is selected — 3000 K or 4000 K. Handy fixtures come in four lengths and wattages. They can be surface-mounted either straight or at a 45° angle. The series also includes models with a double grounded socket and an on/off switch that allows the sockets to be controlled directly from the luminaire.

Technical details
