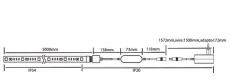
SmartHome LED Strip 12 V

Smart LED Strip 12V 3,4W/m RGBTW 5m

WiFi LED strip

Description of product family

With the WiFi CCT RGB LED strip, you can create indirect lighting or exciting light effects in your home. Simply plug the strip into a wall socket – it's ready to use! Adjust the color temperature from warm to cool white (2700 K – 6500 K), or change the light color using the RGB feature. The strip can display only one color at a time – it does not support gradient or rainbow effects. LED strips can be connected together up to a total length of five meters. The range includes strips of various lengths and a 1-meter extension piece.



You can control Airam SmartHome products with the Airam SmartHome app. Download the app from the App Store or Google Play. The app is available in Finnish, Swedish, and English. Connect your devices to your home's secure WiFi network – no separate hub is required! Products can also be voice-controlled via Google Assistant, Amazon Alexa, or Siri Shortcuts.
