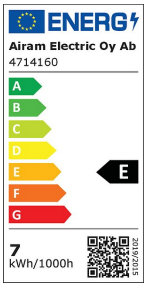
3-Step-CCT

LED G95 822-840 806lm E27 3ST CCT

Bulbs with adjustable color temperature

Description of product family

3-Step-CCT bulbs are controlled using a standard wall switch – no separate dimmer or controller is required. By clicking the switch within three seconds, you can stepwise adjust the light's colour temperature (kelvin). As the colour of the light changes, the brightness (lumen output) also changes. The bulb first turns on at full output in cool white light (4000 K), the second switch press changes the light to white (3000 K) and reduces brightness, and the third press changes the light to warm white (2200 K) with further dimming – allowing you to easily adjust the atmosphere of your home to suit any situation. Memory function: when the bulb is switched off completely, the last light setting is retained. The G9 bulb does not have a memory function.



Technical details

Opal globe-shaped 3-Step Dim series CCT LED bulb, dimmable with a standard switch, 7W. Color temperature options: warm white 2200K at 20% brightness / white 3000K at 50% brightness / cool white 4000K at 100% brightness. E27 base, 806 lm, lifespan approx. 15,000 hours, size ø 95 x 140 mm, cardboard packaging. Frequency ~50/60Hz. Good color rendering index CRI > 80. Continuous and stable spectrum, no color distortion. No UV or IR radiation. Does not contain mercury. Three-year warranty.
