

Alppila Double XL

Alppila Double XL IP44 2XGU10 ANT

Wall luminaire

Description of product family

The Alppila Double XL wall luminaires are great outdoor light fixtures for lighting even the larger facades or terraces. The lamps send light beams up and down so that you can highlight the building's facade and the walkways near the wall at the same time. Impressive steel body and glare guard made of glass. The colour temperature, output and beam angle of the bulb have a significant impact on the effectiveness and mood of the lighting.

Technical details

Alppila Double XL is great for illuminating the facades or decks of even larger houses. Shines a beam of light both above and below the lamp. LED bulbs 2 x PAR16 GU10 max. 7 W, not included in the package. Stainless steel frame, color anthracite. Tempered glass globe. IP44. Not suitable for chaining.
