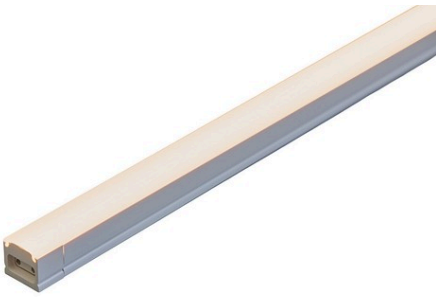
CabiLink

CABILINK 58CM 3CCT 220-240V 7.5W

Extendable Under-Cabinet Light



Description of product family

CabiLink is a low-profile and space-saving lighting system suitable for many applications, such as under kitchen cabinets. Light modules are available in three lengths and can be linked together using the included connector cable and plug. The cable enables corner installations, while the plug is ideal for long, straight runs. The total lighting system can be extended up to 7 meters! The color temperature is adjustable via a switch on the side of the luminaire. Easy installation with small clips and screws or double-sided tape. Mounting accessories are included in the package.

Technical details

CabiLink 580 (7.5 W) task or under-cabinet light for flexible illumination. Extendable (up to 7 m / 90 lm/W), easy to install. Includes linking cable, connector, and mounting accessories. Adjustable color temperature: 2700 K / 3000 K / 4000 K. Part of the CabiLink system. Available in various lengths.
