

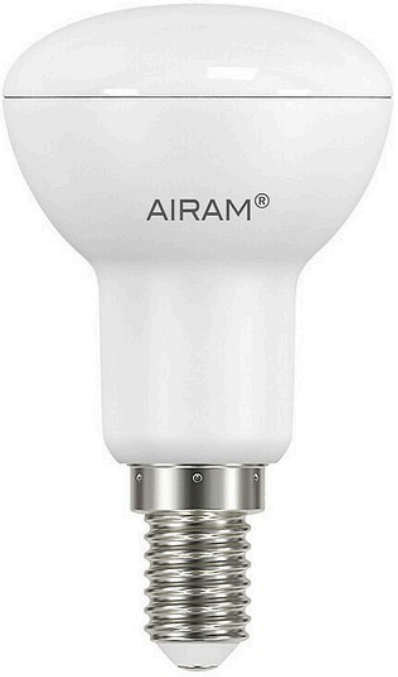
Onni SMD LED standard lamps 2700 K

LED R50 827 250lm E14 110D OP

E27 and E14 lamps with warm white light



Description of product family

SMD lamps feature a plastic neck. The LEDs are positioned on the surface of the neck section inside the lamp bulb, which means SMD lamps do not emit light towards the base. Depending on the luminaire, the neck may appear as a slightly darker shadow in the surroundings. Onni SMD LED standard lamps 2700 K provide a pleasant warm white light. The range includes a comprehensive selection of opal-bulb lamps in various shapes with E14 or E27 bases.
