SmartHome Thermometer and Hygrometer

SMART TEMPERATURE/HUMIDITY SENSOR

Description of product family

Airam SmartHome is a range of products designed to make daily life easier. The SmartHome thermometer and hygrometer allows you to monitor the indoor temperature and humidity wherever you want! You can pair the meter with another SmartHome product and use it to trigger various actions around the house! For example, you can pair the meter with a glass panel heater to switch it on automatically when the temperature falls below your specified threshold. The device also shows you the lighting level and time. SmartHome products connect to the Wi-Fi network at your home or cabin, for example, and you control them with the easy-to-use Airam SmartHome app. The device offers Finnish, Swedish, and English language options, and the language is chosen depending on your phone settings.
