Puhti batteries

PUHTI BATTERY LR6 AA 16/BX

Description of product family

Puhti batteries are durable and affordable general-purpose batteries for a wide range of uses, such as remote controls, torches, toys and decorative lights. Puhti batteries contain neither cadmium nor mercury. Everyone needs a little Puhti from time to time! Always keep batteries on hand both at home and at the cottage. Storage life 7 years. Batteries should be recycled by wrapping tape around the battery terminals. This prevents the terminals from coming into contact with each other in the recycling container and thus helps prevent potentially dangerous overheating. Small rechargeable batteries and disposable batteries can be recycled by taking them to your local shop. If the recycling container is not visible, ask the staff for assistance.
