Lamp Cord with Switch

E14 MAX 5W+CABLE 5M+EUROPLUG+SWITCH

## Description of product family

With a suspended cord and e.g. a paper star, you can add a special atmosphere to your interior design. A lamp holder for an E14 based bulb (max. 5 W). The cord is no less than 5 m long – this makes the installation easier, and you will probably not need any extension cords. The cord has a handy on/off switch. With a separate timer or a light-sensitive switch plug, you can pre-set the star cord to go on and off automatically at selected times. Airam's product range includes a light and thin 3 m European extension cord.
