Iris

Plant light Iris 5W/835 240lm YEL

Grow light

Description of product family

The slim Iris grow light provides plants with essential supplemental light during the darker season while also enhancing interior décor. Available in two colours: white and yellow. The height of the lamp stem is continuously adjustable from 212 to 710 mm, and the metal stem is inserted directly into the soil of the pot. Light output can be adjusted in steps. The product also features an automatic three-step timer. Select the desired timer setting using the button on the cable: 8 h (light on, 16 h off), 12 h (light on, 12 h off) or 16 h (light on, 8 h off). The timer controls both on and off functions. To change the timer setting, the timer can be reset by briefly disconnecting the lamp from the power source. The light operates via a USB connection; a USB-A power adapter is not included.
