SENSOR BATTERY LIGHT BLACK

Motion sensor light

Description of product family

A compact, folding LED lighting fixture with a motion sensor with a light sensor. The lights can be directed separately. An ideal choice for locations without electricity supply, such as a wood shed or parking space at your holiday home. When the switch is in the ‘on’ position, the light turns on for 30 seconds when movement is detected, after which, if the motion sensor is not reactivated within 5 seconds, the light switches off again. Operates with AA batteries, operating time of about 4 h with a single set of batteries.
