Powder Steel mugs

POWDER STEEL MUG 0,35 L WHITE

Leak-proof stainless steel thermo mug

Description of product family

Luxurious powder-coated mug with a matte finish. The rubber handle guarantees a good grip on the product. Thanks to the rubber base, the mug stays firmly on different surfaces. The mug is easy to use due to the practical locking / unlocking mechanism. It does not leak, so it can also be carried in a bag. The products are not dishwasher safe.

Technical details

0.35 L white stainless steel mug with a powder-coated matte finish and a rubber handle. The rubber base ensures stability on various surfaces. Features a practical locking and opening mechanism. Leak-proof. Not dishwasher safe.
