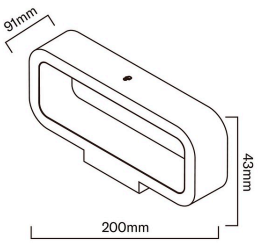
Oree

OREE WALL 3CCT DIM USB-C WHITE

Wall Light, USB

Description of product family

The USB-rechargeable Oree wall light provides atmospheric and eye-friendly indirect lighting. The light is cordless: attach the mounting plate to the wall in the desired location and, if needed, secure it with the strong 3M adhesive included in the package. Mounting screws are included. The light attaches magnetically to the mounting plate. The magnetic mounting allows easy removal for charging, and a USB-C charging cable is included. A touch switch on the front of the light allows you to adjust the colour temperature in three steps. Press and hold to dim the light smoothly. The light remembers the last selected lighting setting. The light can also be controlled with the included remote control, which features a timer function. If several identical lights are installed in the same space, the corridor mode can be activated via the remote control's motion sensor, turning all lights on simultaneously. Available in two colours: white or black.



Technical details

Oree is a cordless, USB-rechargeable wall light that provides indirect lighting. Housing colour white. Adjust the light colour temperature via the touch switch (3000 / 4000 / 6500 K) and dim steplessly by pressing and holding the switch. The light remembers the last used setting. The package includes mounting screws for the mounting plate, 3M adhesive tape, a USB-C charging cable and a remote control. The light attaches magnetically to the mounting plate. The remote control features, among other functions, a timer and a motion sensor, allowing multiple identical lights in the same space to be switched on simultaneously. Battery 4000 mAh. Operating time approx. 6 h, charging time approx. 3 h. USB-C charging cable included.
