Bicycle Light Set

BIKE LIGHT SET USB RECHARG.

A USB-rechargeable bicycle light set

Description of product family

Rear lights became compulsory equipment on bikes in Finland on 1 June 2020. The set includes handy USB-rechargeable front and rear lights. The front light has three brightness levels, 100, 50 and 30%, in addition to a flashing mode. The red rear light is also adjustable (100–60%) and it offers a flash function at 100% brightness. The run time depends on the brightness level selected. At 100% efficiency, a single charge lasts 3.5–4 hours, while in flashing mode, the run time is up to 6.5–8.5 hours. The rear light takes 2 hours to recharge and the head light takes 3.5 hours. The package includes a USB cable. Both lights can be mounted on a bike with a handy, easy-to-use quick-release clamp.

Technical details

The USB rechargeable bicycle light set includes both a front light and a rear light, as well as a charging cable. Both lights are equipped with an easy-to-use quick-release mounting system. The front light features a 5W CREE LED with a brightness of 300 lumens and a charging time of approximately 3.5 hours. It offers four lighting modes with the following runtimes: 100% brightness for 3.5 hours, 50% for 5.5 hours, 30% for 6.5 hours, and flashing mode (50%) for 6.5 hours. The rear light uses a COB LED and charges in approximately 2 hours. Its lighting modes and runtimes are: 100% brightness for 4 hours, 60% for 6 hours, and flashing mode (100%) for 8.5 hours.
