Aurora

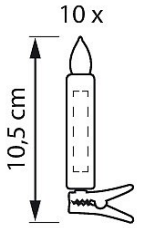

AURORA CANDLES + REMOTE CONTROL

LED Christmas tree candles, remote control

Description of product family

Set of separate, wireless battery-operated Christmas tree candles, 10 pcs. Can also be placed in covered outdoor areas. The different functions of the candles are controlled by the remote control: adjust the light intensity and flame effect. With the timer function on the remote control, the candles will turn on automatically. One remote control can operate multiple candle sets! The candle can be removed from the holder and placed in a regular candle holder, for example. Material: plastic.
