VISA CHRISTMAS TREE 154 LED RGB

Christmas tree RGB

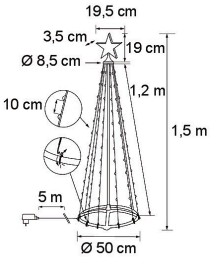

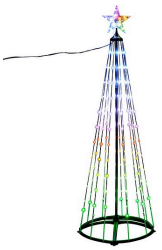

Description of product family

A cone-shaped ornament with a lightweight structure that resembles a Christmas tree when illuminated, with a star shining at the top. The cone consists of a Ø 50 cm base plate with a support arm at the center. In addition to the star, the top of the support arm also contains a smaller ring with 12 LED strings, which are attached to the edge of the base plate with hooks at an equal distance from each other. The RGB lights have several different settings that can be controlled using the remote. Features a timer function.
