Ivy

PLANT LIGHT IVY 14W/835 650LM

Grow light

Description of product family

A beautifully shaped, lightweight grow light that provides plants with the reddish light they need. The light can be used either standing on a surface with the base attached, or by inserting the metal stem directly into the soil of a plant pot. The stem is telescopic and adjustable from approx. 23 to 60 cm. The light output can be dimmed in five steps and timed in three stages. Select the desired timer setting using the button on the cable: 8 h (on 8 h / off 16 h), 12 h (on 12 h / off 12 h) or 16 h (on 16 h / off 8 h). The timer controls both on and off functions. To change the timer setting, reset it by briefly disconnecting the light from the power supply.
