Loop XL 3D

Loop XL 3D 8W/865 650lm BK

Magnifying luminaire

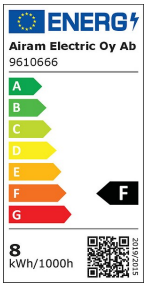

Description of product family

The powerful Loop XL lamp features a 5” 3D glass lens with 1.75x magnification. The lens is covered by a protective lid. When closed, the Loop XL also functions as a standard task lamp. LEDs surrounding the lens emit cool white light (6500 K). The magnifying LED lamp is an excellent aid for precision work and hobbies. Secure the lamp firmly to the edge of a table with the included clamp. The articulated arm allows the light to be directed exactly where needed. The power switch is located on the lamp body.
